INTRODUCTORY

"Service, Quality, Fair Prices Since 1915"

We deeply appreciate your loyalty and kind patronage, and hope to serve you even better this season.

As you turn the pages of this catalog you may feel assured that every statement made here is backed by a reputable firm of long experience with northern grown nursery stock. Our stock is exactly as represented; our goods are first-class in every respect.

We never send out seconds or inferior grades.

Northern trees and shrubs are **hardy**. Nursery stock that can stand the winters in Otter Tail County can stand the severest weather in the United States.

You will find our prices fair. You may find lower prices, but it will be hard to find better stock.

Terms of Business and Our Guarantee

Cash with order unless otherwise agreed. Remit by P. O. or Express Money Orders, Bank Draft or your personal check. Send in your order early and remit when you want goods shipped, if you wish. We give three of one kind and size at dozen rates; fifty at one hundred rates; three hundred at thousand rates. We ship by express or freight; smaller shipments by mail. Allow for postage or tell us to ship C. O. D. for postage, if you want parcel post shipment. State when you want shipment sent. While we exert the greatest care to have everything true to name we will not assume any responsibility for errors that may occur other than to replace any stock which may prove untrue. We replace all stock that fails to grow at one-half list price if reported to us within 90 days after goods are received. This means that it will reach you in a healthy, growing condition, and is a fair deal. All goods are shipped F. O. B. Battle Lake, Minnesota, unless otherwise arranged.

Send your order in as soon as you receive this catalog—the sooner the better. Prices are net F. O. B. Battle Lake, Minnesota. Packing free. Gladiolus and seeds sent postpaid on receipt of price.

When single price is given for dozen rate multiply by 10. Example: 50c each or \$5.00 per dozen.

IMPORTANT—If you remit by personal check, be sure to add 10c exchange charges.

The prices in this catalog cancel all other former prices.

PLAN BEFORE YOU PLANT

Consult our landscape department. Make and send us a pencil sketch of your grounds marking all boundaries, roads, walks, buildings, trees, and other existing features. Give dimensions for all parts and make the sketch distinct as possible. After receiving your sketch, we will give you the cost of a "Planting Plan" for your particular conditions. The cost of plans will be very reasonable and if the plants are bought from us, the plan is free.

The plan will be drawn after the price (cash, money order, or stamps) of the plan is received. With the plan you will receive two credit slips; one you keep to be sent with order, and the other duplicate is sent to us for filing. This credit slip is good in trade to the amount of price paid for plan. This established credit will compensate for price paid for plan; thus a free plan.

From B. Nurs. Co., Tippecanoe City, Ohio. Dec. 9th 1933. We like the Pentstemon Grandiflora very much.

From W. Nurs. Co., Inc., Holland, Mich. Dec. 5th, 1933—Are glad to say that we were pleased with your Pentstemon Grandiflora. A fine variety and intend to grow it—.

From LaJunte, Colo., Mrs. WWG.—The Delphiniums ordered last year are up 3-4 in. and will make a splendid showing this summer. \$1.25 enclosed please send—

From Supt. of Schools, Mr. Dalen, Fairmount, N. Dak., Oct. 10th, 1933—We have certainly been highly pleased with the plants obtained from you, and we shall surely obtain anything we need from you, etc.—

From Mrs. Oscar F. Lawrenceburg, Tenn.—I have received my plants, they were in good condition. April 22nd, 1933.

From Bemidji, Minn.—Trees all seem to be living, even the strawberry plant that came with them—would like your book on rock garden. The Apple and Plum trees that I bought two years ago are doing fine—one of the apples bloomed and so did the Plums. R. W. L.

From Rhinelander, Wis.—I am interested in Pyramidal Arbor Vitae. I have never seen as nice stock as the order you sent to Mrs. C. D. P. order No. 5536. Respt., Mrs. H. D., July 12, '33.

From Kodaka, S. Dak.—I got Chinese Elms from you last year and they are doing fine. E. T. McR.

Detroit, Mich., July 13, 1932—"Planted some of your Roses this spring and have had three periods of blooming so far." J. P. M. Jr.

Denver, Colo., Sept. 30, 1932—"The twelve 2-year-old Delphinium plants you sent me early in the spring are exceedingly satisfactory, and I got more, and better blooms from them than from the supposedly extra fancy roots purchased from eastern growers at 35c each. I plan to get some more of these for my garden next spring, if you still have them available." Charles E. Brennen.

These are just a few pats on our back, our files are full of these good letters.

Send your order today to **SWEDBERG NURSERY, Battle Lake, Minnesota.**

“E.” “C.” designates—E. for “Eating”; C. for “Cooking” or E. and C. good for both eating and cooking. This information is given for our customers as in general they want to know what the variety is good for. Note the “E.” or “C.”

SUMMER APPLES

ANOKA—Good quality and bears often second year set out, season September.

DUCHESS OF OLDENBERG E.—Good size, yellow, streaked red, juicy, red, sub-acid, productive. Valuable for market.

YELLOW TRANSPARENT E.—Earliest and best; tender, juicy, sprightly, sub-acid.

AUTUMN APPLES

PATTEN'S GREENING C.—Large, round, yellowish green with bronze, blush, sub-acid. Very hardy. A good keeper.

WEALTHY E. and C.—Originated in Minnesota. Hardy. Vigorous and very productive. A good keeper.

WOLF RIVER C.—Large, handsome; yellow, striped red, juicy, pleasant, spicy flavor, very hardy.

FOLWELL E.—One of Minnesota State Fruit Breeding Farm apples. Good quality, same season as Wealthy.

HIBERNAL C.—Sour, good for cooking. Tree very hardy.

OKABENA E.—Similar to Duchess, but later and preferred by many to that variety.

WINTER APPLES

ANISIM E. and C.—Season early winter. Color crimson; valuable in the Northwest.

HARALSON E. and C.—One of Minnesota State Fruit Breeding Farm apples. Keeps until spring in a common cellar. Quality very good. Hangs to tree until late.

McINTOSH E.—Medium size, dark red, good quality, juicy, sub-acid.

MALINDA C.—Season late winter; color yellow with red blush. Best winter apple for the North.

NORTHWESTERN GREENING C.—Hardy, yellow, rich, of good size; extra long keeper.

PERKINS (72) E. and C.—Keeps until May or June.

CRAB APPLES

Perfectly hardy, succeed everywhere; early and annual bearers.

HYSLOP—Large, deep crimson; one of the most beautiful; very popular.

FLORENCE—One of the best to plant. Very hardy; an early bearer. Fruit large, red and of good quality. Origin, Minnesota. Tree very hardy.

SWEET RUSSET—Large, roundish oblong, greenish, yellow, mild, sweet.

TRANSCENDENT—Immensely productive, bright red; one of the most popular.

WHITNEY—One of the largest, glossy green, splashed carmine; firm, juicy, pleasant, great bearer. Fine to eat out of hand.

DOLGO CRAB—Brilliant red, oblate apples. Suitable for all uses. Tree very attractive with dense dark green foliage.

PROF. HANSEN'S HYBRID PLUMS

The Plums Without a Plum Pocket

SAPA—Blue-black. Solid cherry plum. Very heavy bearer.

OPATA—Red; green meat. Large, fine flavor.

HANSKA—Red, flavor of apricot, fine for canning and preserving.

WANETA—The mammoth red plum. Size of a small crab.

We have other varieties grown by us. Tell us what you want if you do not find the variety listed.

NEW MINNESOTA HYBRID PLUMS

State Breeding Farm Fruit

NEW FEEBING PRIZE PLUM—Large red freestone and earliest plum yet introduced. Tested to be very good.

UNDERWOOD—A cross between Shiro and Wyant, is one of the outstanding members of the new group of hybrid plums. Red over yellow. Large, semi-cling, juicy, sweet. Early.

TONKA—A cross between Burbank and Wolf, considered one of the best of Minnesota hybrids, light red. Large, midseason, freestone, a good canner. Early.

RED WING—A Burbank and Wolf Cross, it's marked for distinction because of its unusually large fine appearing, light red fruits which are so well adapted to dessert and culinary purposes. The skins and pits are so easily removed that the fruits can readily be sliced and served with sugar and cream, like peaches. Midseason.

MONITOR—A Burbank and native cross, bronze red. Large, late. A delicious fruit and heavy cropper. Late midseason.

RADISSON—A cross between unknown varieties of Prunus Salicina and probably Prunus Americana. It produces a large showy red plum of most delicious flavor, ripening about August 1st. Early.

HENNEPIN—A Satsuma and Americana cross. A dark reddish purple plum covered with dense bloom, giving it a distinctive and attractive appearance, valuable for canning and preserving on account of its rich purplish red flesh. Early.

GOLDEN ROD—A Shiro and Howard Yellow cross, a clear yellow plum, a promising marketing variety because of its firm flesh, large size, attractive color. Late.

ZUMBRA CHERRY—A sandcherry and pincherry and black sweet cherry cross. Purplish black fruit. Ripe in August. Crisp flesh pleasantly flavored, fine canner. Stone very small.

ST. ANTHONY CHERRY—A sandcherry and Satsuma plum cross. Resembles the Sapa but more attractively colored. Fine flavor. Dull purplish red. Flesh dark red, juicy. Late August.

We grow other varieties, if interested in others ask for them.

OTHER PLUMS AND CHERRIES

COMPASS CHERRY—Red. The hardy plum cherry. Good.

DESOTO—Medium to large; color yellow turning to red when fully ripe; flesh firm and good. Medium to late.

SURPRISE—Fruit large, dark purplish red; flesh firm, tender and of fine quality.

TERRY—Our best Native Plum. Abundant bearer, delicious to eat out of hand. Latest to ripen.
